FOUNDERS OF ORIGANIC

ZS “KAROTĪTES”

Hi, we are Liene and Rīčards Kalnciemi. We run an organic poultry farm with our own hatchery, sloutherhouse and distribution center. We believe that nothing is more important than product quality and communication.

SIA “LABIE JĒRI”

Hi, my name is Kaspars Čīma. A few years ago, I decided to start organic sheep farming with ‘pure breed Ile De france’ sheep. Being involved in the restaurant industry for over 20 years, I highly value reliable deliveries and consistent quality in meat.

GAĻAS FABRIKA
ANNO 2020

SIA “MG FABRIKA”

Hi, my name is Rūdolfs Rubenis. I run a meat processing plant, in which I oversee high quality, organically certified meat products. I believe in details. Its important to me what your children, family and friends eat.

We are a cooperative of organic farms and producers in Latvia, working together to produce top-quality organic meat and meat processing products. In all our farms animals live according to their habits in wild nature, ensuring the highest health standards. We prioritize meat breeds and slow-growing species, guaranteeing meat quality, texture, and taste.

We ensure that our products are free from harmful chemicals or antibiotics. Additionally, we actively promote environmentally friendly agricultural values and offer various organic products.
